SUMMARY

I would like to introduce myself as a dynamic and creative software developer with over one and a half years of experience in producing robust code for high-volume companies. Eager to support the development team with top-notch coding skills.

PROFESSIONAL SKILLS

Programming Languages: C, C#, Java, HTML, XML, CSS, PHP, and JS.
Databases: SQL, MySQL, Oracle Database, MS Access, Microsoft SQL Server
Tools: MS Visual Studio, Android Studio, XAMPP, Dreamweaver etc.
Platforms: Windows, Ubuntu, Linux, Mac OS
Others: Also have knowledge of the software life-cycle, CORBA, OOP

PROFESSIONAL EXPERIENCE

Purple Clone Pvt. Ltd., March-2018 - November-2018

Address: (Khudi-Bhandarik, +977-9827156325,
contact@purpleclone.com, purpleclone.com.np)

Position: Web Developer (Working as an internship)

(During this internship I have developed various dynamics and statics websites, some of them are very popular today. During my tenure in this company I've learned a lot like Laravel Framework, HTML/CSS, JS)

Projects:

Project name: Bakery Website (E-commerce website)

Project Description: *This website was for a bakery shop, in which the user can make an online order, view their order status, and also can delete his order as company rules.)*

Project Duration: Involvement: This project had already started before my internship and I was enrolled in the middle of the project and finished in June-2018.

Programming Duration: *(Usually I used to code and test 3/4 hours per day)*

Responsibilities: *(I was fully handling the whole project after my involvement in this project only by myself, Designing user interface, coding, testing, and maintenance)*

Tools Used: XAMPP, Sublime, MySQL, Windows 10

Informatics College Pokhara, Jan-2019 - April-2019

Address: (Pokhara-Kaski, +977-61538115, info@icp.edu.np, icp.edu.np)

Position: Module Teacher (HTML/CSS, Basic Java)

Teaching Duration: *(Part time, two period per day)*

AplhaTEDS Pvt. Ltd., March-2019 - Till Now

Address: Gongabu, Kathmandu, +977-9861007803, alphateds.com

Position: Software Developer

Projects:

Project Name: Gungaan *(Mobile application and web- <https://gungaan.com>)*

Project Description: *“Gungaan” is a mobile application and website as well. This application is developed for “DYT Modelling Company”. DYT’s customer is used as social networking within a limited group of the company member or customer. DYT company has used this application for its customers to connect with each other and manage their portfolio.)*

Project Duration: For the web version, it took almost two months *(version 1.0)* and for the mobile application it took almost two and a half months *(version 1.0)*.

Programming Duration: This was the most complicated project I have ever done. I used to code almost *10 hours per day*.

Responsibility: (Coding, Database Design, UI Design, Testing, and Debugging)

Used: PHP, HTML, CSS, JavaScript *(for the web application)*

JAVA and XML *(for Android Application.)*

Project Name: Paaiyo *(It is also a mobile application and web project- <https://paaiyo.com>)*

Project Description: Paaiyo mobile application allows users to find the nearest shop. In this application, the shopkeeper adds their details, offers, location, and services. Paaiyo users will be able to find the nearest shop and also can filter by category of shop like Consultancy, Whole-Sale Store, etc.

Project Duration: It almost took six months. *(March/April-2019 to Dec-2019)*

Programming Duration: Daily 8 to 9 hours of coding.

Responsibility: (UI Design, Coding, Testing)

I have developed the following component for this project:

I. Paaiyo Wallet

II. Chat System

III. Payment Method Integration

IV. Map Integration

V. Shop listing by calculating the nearest distance from the user.

VI. And many more maintenance and testing.

(I have worked it under the supervision of team senior team member)

Language Used: HP, HTML, CSS, JavaScript *(for the web application)*

JAVA and XML (*for Android Application.*)

IT CERTIFICATIONS

1. Fundamentals Of Digital Marketing, Online Course Provided by Google Digital Garage.
2. Search Engine Optimization Fundamental, Online Course(*But I didn't get the certificate because it was paid course and I joined for free later on I took the course and discard certificate*)
3. Online Business Training, Gautam Company, Kathmandu

EDUCATION

SLC, Janapriya Higher Secondary School, Pokhara, Nepal
2012 (69%)

+2 Science, Rastriya Higher Secondary School, Pokhara, Nepal
